Year 3 Action Agenda Ideas

Discussed impending budget issues and possibility that subcommittee structure may change. The committee feels that Housing, Transportation, and Food issues should remain part of a Basic Needs group but that Child Safety could be addressed by Parent Ed and Physical Health subcommittees. Economic Security is a very large issue and perhaps needs to be addressed by the entire GSC-O partnership.

Committee would like to do something concrete, such as housing brochures, etc---something smaller than the Parenting Resource manual but something that can be distributed to families at GSC-O events. Would like to get survivors to tell about using the resources---what works and what does not work.

Need to create a brochure with the transportation information we know, adding information as we get it.

Need to engage UWSEM to assist with Basic Needs in Oakland County.

Consider engaging UWSEM Volunteers to assist families with transportation.

Final Transportation survey results will be available next meeting.

Next Meeting: September 10, 2009, 9:30-11:30 AM, Oakland County Child Care Council.
